

**Twelve Monkeys Vapor Co. Monkey Mix Infinity Collection Hakuna
65VG/35PG 0mg/mL 50mL 0****Safety data sheet**

according to Regulation EC 1907/2006 (REACH) and subsequent amendment Regulation EU 830/2015

SECTION 1. Identification of the substance/mixture and of the company/undertaking**1.1. Product identifier**

Product name:	Twelve Monkeys Vapor Co. Monkey Mix Infinity Collection Hakuna 65VG/35PG 0mg/mL 50mL 0
----------------------	--

1.2. Relevant identified uses of the substance or mixture and uses advised against

Description/Use	Liquid for e-cigarette without nicotine/ Flavoured e-liquid		
Intended use:	Industrial	Professional	Consumer
Electronic cigarette		X	X

1.3. Details of the supplier of the Safety Data Sheet

Name:	RVG Distribution Limited
Full address:	Unit E4 Explorer, Voyager Park, Portfield Road Portsmouth, Hampshire, England PO3 5FL
District and Country:	Great Britain - 0044 2392 292941 - Fax.
E-mail address of the competent person responsible for the Safety Data Sheet:	management@rvgdistribution.com

1.4. Emergency telephone number

For urgent inquiries refer to:	0044 2392 292941; management@rvgdistribution.com; NHS 111
---------------------------------------	---

SECTION 2. Hazards identification**2.1. Classification of the substance or mixture**

The product is not classified as hazardous pursuant to the provisions set forth in EC Regulation 1272/2008 (CLP) (and subsequent amendments and supplements). However, since the product contains hazardous substances in concentrations such as to be declared in section no. 3, it requires a safety data sheet with appropriate information, compliant to EC Regulation 1907/2006 and subsequent amendment.

Hazard classification and indication: -**2.2. Label elements**

Hazard labelling pursuant to EC Regulation 1272/2008 (CLP) and subsequent amendments and supplements

Hazard pictograms: -**Signal words: -****Hazard statements:**

EUH208	Contains trans 2 hexenal, Furaneol. May produce an allergic reaction.

SECTION 4. First aid measures

4.1. Description of first aid measures

EYES: Remove contact lenses, if present. Wash immediately with plenty of water for at least 15 minutes, opening the eyelids fully. If problem persists, seek medical advice.

SKIN: Remove contaminated clothing. Rinse skin with a shower immediately. Get medical advice/attention immediately. Wash contaminated clothing before using again.

INHALATION: Remove to open air. If the subject stops breathing, administer artificial respiration. Get medical advice/attention immediately.

INGESTION: Get medical advice/attention immediately. Do not induce vomiting. Do not administer anything not explicitly authorized by a doctor.

PROTECTION MEASURES FOR FIRST RESPONDERS: Concerning PPE suitable for first aid operations, please refer to section 8.2 of this safety data sheet.

4.2. Most important symptoms and effects, both acute and delayed

Specific information on symptoms and effects caused by the product are unknown. For symptoms and effects caused by the contained substances, see chap. 11.

4.3. Indication of any immediate medical attention and special treatments needed

Information not available

SECTION 5. Firefighting measures

5.1. Exstinguishing media

SUITABLE EXTINGUISHING EQUIPMENT

The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder and water spray.

UNSUITABLE EXTINGUISHING EQUIPMENT

Do not use water jets. The water is not effective to extinguish a fire, however it can be used to cool the closed containers next to the flame and prevent explosion.

5.2. Special hazards arising from the substance or mixture

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE

Do not breathe combustion products

**Twelve Monkeys Vapor Co. Monkey Mix Infinity Collection Hakuna
65VG/35PG 0mg/mL 50mL 0****5.3. Advice for firefighters****GENERAL INFORMATION**

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from drying into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

SPECIAL EQUIPMENTS FOR FIREFIGHTERS

Normal firefighting clothing i.e. fire kit (EN 469), gloves (EN 659) and boots (HO specification A29 and A30) in combination with self contained open circuit positive pressure compressed air breathing apparatus (EN 137).

SECTION 6. Accidental release measures**6.1. Personal precautions, protective equipment and emergency procedures**

Block the leakage if there is no hazard.

Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the Safety Data Sheet) to prevent any contamination of a skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.

6.2. Environmental precautions

The product must not penetrate into the sewer system or come into contact with surface water or ground water

6.3. Methods and material for containment and cleaning up

Collect the leaked product into a suitable container. If the product is flammable, use explosion-proof equipment. Evaluate the compatibility of the container to be used for, by checking Section 10. Absorb the remainder with inert absorbent material. Make sure the leakage site is well aired. Contaminated material should be disposed in compliance with the provisions set forth in point 13.

6.4. References to other sections

Any information on personal protection and disposal is given in Sections 8 and 13.

SECTION 7. Handling and storage**7.1. Precautions for safe handling**

Before handling the product, consult all the other sections of this material Safety Data Sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use. Remove any contaminated clothes and personal protective equipment before entering places in which people eat.

7.2. Conditions for safe storage including any incompatibility

Store only in the original container. Store the containers sealed, in a well ventilated place, away from direct sunlight. Keep containers away from any incompatible material, see Section 10 for details.

7.3. Specific end use(s)

Information not available

8.2. Exposure controls
<p>As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration. Personal protective equipment must be CE marked, showing that it complies with applicable standards.</p> <p>HAND PROTECTION</p> <p>Protect hands with category III work gloves (see standard EN 374).</p> <p>The following should be considered when choosing work glove material: compatibility, degradation, failure time and permeability. The work gloves' resistance to chemical agents should be checked before use, as it can be unpredictable. The gloves' wear time depends on the duration and type of use.</p> <p>SKIN PROTECTION</p> <p>Wear category I professional long-sleeved overalls and safety footwear (see Directive 89/686/EEC and standard EN ISO 20344). Wash body with soap and water after removing protective clothing.</p> <p>EYE PROTECTION</p> <p>Wear airtight protective goggles (see standard EN 166).</p> <p>In the presence of risks of exposure to splashes or squirts during work, adequate mouth, nose and eye protection should be used to prevent accidental absorption.</p> <p>RESPIRATORY PROTECTION</p> <p>If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, a mask which class must be chosen according to the limit of use concentrations. (see standard EN 14387). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required. Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.</p> <p>If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus (in compliance with standard EN 137) or external air-intake breathing apparatus (in compliance with standard EN 138). For a correct choice of respiratory protection device, see standard EN 529.</p> <p>ENVIRONMENTAL EXPOSURE CONTROLS</p> <p>The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to</p>

**Twelve Monkeys Vapor Co. Monkey Mix Infinity Collection Hakuna

ensure compliance with environmental standards.

SECTION 9. Physical and chemical properties**9.1. Information on basic physical and chemical properties**

Appearance:	Liquid
Colour:	Various
Odour:	Characteristic
Odour threshold :	Not available due to absence of data
pH:	5.00 - 7.00
Melting point / freezing point:	Not available due to absence of data
Initial boiling point:	Not available due to absence of data
Boiling range:	Not available due to absence of data
Flash point:	> 60 °C
Evaporation rate:	Not available due to absence of data
Flammability (solid, gas):	Not applicable because the product is liquid
Lower inflammability limit:	Not available due to absence of data
Upper inflammability limit:	Not available due to absence of data
Lower explosive limit:	Not available due to absence of data
Upper explosive limit:	Not available due to absence of data
Vapour pressure:	Not available due to absence of data
Vapour density:	Not available due to absence of data
Relative density:	1.0 - 1.3 g/cm3
Solubility:	Not available due to absence of data
Partition coefficient: n-octano/water:	Not available due to absence of data
Auto-ignition temperature:	Not available due to absence of data
Decomposition temperature:	Not available due to absence of data
Viscosity:	Not available due to absence of data
Explosive properties:	Not available due to absence of data
Oxidising properties:	Not available due to absence of data

9.2. Other information

Information not available

SECTION 10. Stability and reactivity**10.1. Reactivity**

There are no particular risks of reactions with other substances in normal conditions of use

10.2. Chemical stability

The product is stable in normal conditions of use and storage

Twelve Monkeys Vapor Co. Monkey Mix Infinity Collection Hakuna
65VG/35PG 0mg/mL 50mL 0

10.3. Possibility of hazardous reactions

No hazardous reactions are foreseeable in normal conditions of use and storage

10.4. Condition to avoid

None in particular. However, the usual precautions used for chemical products should be respected

10.5. Incompatible materials

Information not available

10.6. Hazardous decomposition products

Information not available

SECTION 11. Toxicological information

In the absence of experimental data for the product itself, health hazards are evaluated according to the properties of the substances it contains, using the criteria specified in the applicable regulation for classification. It is therefore necessary to take into account the concentration of the individual hazardous substances indicated in section 3, to evaluate the toxicological effects of exposure to the product.

11.1. Information on toxicological effects

Acute toxicity

Does not meet the classification criteria for this hazard class

ATE_{mix} (Inhalation - vapours): Not Applicable

ATE_{mix} (Inhalation - mists / powders) of the mixtures: not classified (no significant component)

ATE_{mix} (Oral): 360160.75 mg/kg

ATE_{mix} (Dermal) of the mixtures: 226731.85 mg/kg

Isoamyl acetate

LD50 Skin >5000 mg/kg bw (Rabbit)

LD50 ip 819 mg/kg bw (Rat)

Ethyl acetate

LD50 Oral 1150 mg/kg bw (Rat)

Furaneol

LD50 Oral 1608 mg/kg bw (Mouse)

Skin corrosion / Skin irritation

Does not meet the classification criteria for this hazard class

Serious eye damage / Irritation

Does not meet the classification criteria for this hazard class

Respiratory or skin sensitisation

Does not meet the classification criteria for this hazard class

Germ cell mutagenicity

Does not meet the classification criteria for this hazard class

CALUMETTE

Twelve Monkeys Vapor Co. Monkey Mix Infinity Collection Hakuna
65VG/35PG 0mg/mL 50mL 0

Carcinogenity
Does not meet the classification criteria for this hazard class
Reproductive toxicity
Does not meet the classification criteria for this hazard class
STOT – Single exposure
Does not meet the classification criteria for this hazard class
STOT – Repeated exposure
Does not meet the classification criteria for this hazard class
Aspiration toxicity
Does not meet the classification criteria for this hazard class
SECTION 12. Ecological information
Not being data available, use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or contaminate soil or vegetation.
12.1. Toxicity
Not determined
12.2. Persistence and degradability
Information not available
12.3. Bioaccumulative potential
Not determined
12.4. Mobility in soil
Information not available
12.5. Results of PBT and vPvB assessment
On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0.1%
12.6. Other adverse effects
Information not available
SECTION 13. Disposal considerations
13.1. Waste treatment methods
Reuse, when possible. Product residues should be considered special hazardous waste. The hazard level of waste containing this product should be evaluated according to applicable regulations. Disposal must be performed through an authorized waste management firm, in compliance with national and local regulations.
CONTAMINATED PACKAGING Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

**Twelve Monkeys Vapor Co. Monkey Mix Infinity Collection Hakuna
65VG/35PG 0mg/mL 50mL 0****SECTION 14. Transport information**

The product is not dangerous under current provision of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Inland Waterways Dangerous Goods Code (ADN), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA/IACAO) regulations.

14.1 UN number

Not applicable

14.2. UN proper shipping name

Not applicable

14.3. Transport hazard class(es)

Not applicable

14.4. Packing group

Not applicable

14.5. Environmental hazards

Not applicable

14.6. Special precautions for user

Not applicable

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Information no relevant

SECTION 15. Regulatory information**15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture**

Seveso Category - Directive 2012/18/EC:

None

Restriction relating to the product or contained substance pursuant to Annex XVII to EC Regulation 1907/2006

None

Substances in Candidate List (Art. 59 REACH)

On the basis of available data, the product does not contain any SVHC in percentage greater than 0.1%

Substances subject to authorization (Annex XIV REACH)

Twelve Monkeys Vapor Co. Monkey Mix Infinity Collection Hakuna

65VG/35PG 0mg/mL 50mL 0

None	
Substances subject to exportation reporting pursuant to (EC) Reg. 649/2012	
None	
Substances subject to the Rotterdam Convention	
None	
Substances subject to the Stockholm Convention	
None	
Healthcare controls	
Workers exposed to this chemical agent must not undergo health checks, provided that available risk-assessment data prove that the risks related to the workers' health and safety are modest and that the 98/24/EC directive is respected.	
15.2. Chemical safety assessment	
No chemical safety assessment has been processed for the mixture	
SECTION 16. Other information	
Text of hazard (H) indications mentioned in section 2-3 of the sheet:	
Acute Tox. 3	Acute toxicity, category 3
Acute Tox. 4	Acute toxicity, category 4
Eye Dam. 1	Serious eye damage, category 1
Eye Irrit. 2	Eye irritation, category 2
Flam. Liq. 2	Flammable liquid, category 2
Flam. Liq. 3	Flammable liquid, category 3
STOT SE 3	Specific target organ toxicity (single exposure). Category 3
Skin Corr. 1B	Skin Corrosion, category 1B
Skin Sens. 1A	Skin Sensitisation, category 1A
Skin Sens. 1B	Skin Sensitisation, category 1B
EUH208	Contains ... May produce an allergic reaction.
EUH210	Safety data sheet available on request.
H225	Highly flammable liquid and vapour
H226	Flammable liquid and vapour
H302	Harmful if swallowed
H311	Toxic in contact with skin
H314	Causes severe skin burns and eye damage
H317	May cause an allergic skin reaction
H318	Causes serious eye damage
H319	Causes serious eye irritation
H336	May cause drowsiness or dizziness
